

# LIFTPLAQ®

LE LÈVE-PLAQUE MAGNÉTIQUE

PATENTED INNOVATION AND MADE IN FRANCE

## YOUR DAILY TOOL

The **LIFTPLAQ®** is a **handling aid tool for lifting all kind of manholes covers.**

Acclaimed by the major players in dry and wet networks (construction industry, telecom, road system and urban public utilities...), this plate lifter combines efficiency, time savings and respect for health, since **it reduces considerably the risk of accidents and musculoskeletal disorders.**

The **LIFTPLAQ®** and its various accessories **allow handling all types of plates (manholes) safely**, without touching them and with a slightest effort.

DEMO VIDEO

## A POWERFUL MAGNET

The magnet of the **LIFTPLAQ®** can safely lift loads up to 110Kg while respecting the right gestures and postures.

Its lifting capacity is **450kg** under optimal conditions.

This **permanent magnetic system** does not lose magnetization over time and does not require periodic monitoring.

## EASY AND SAFE USE

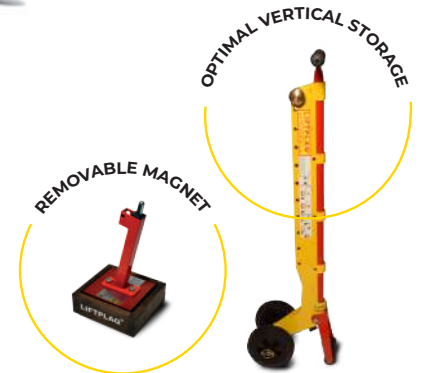

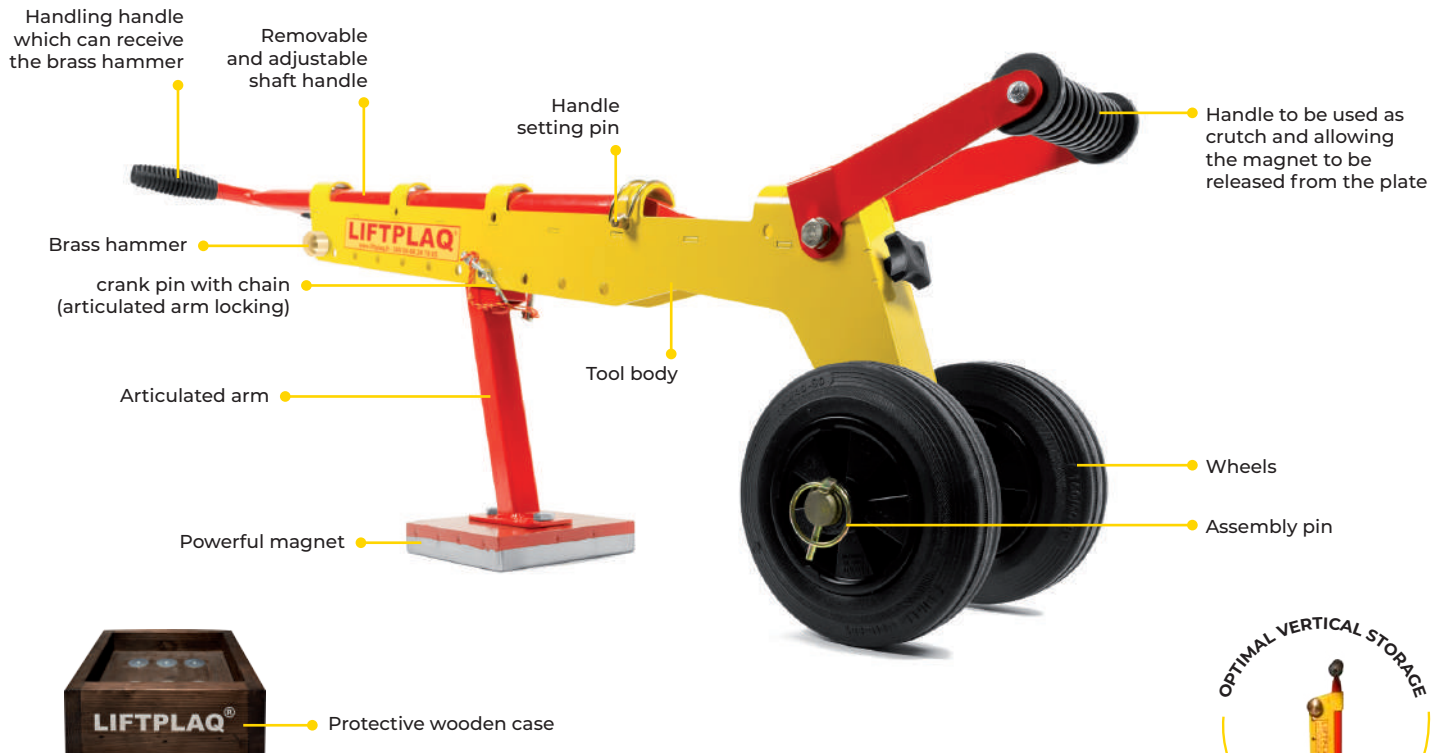

When handling, the **LIFTPLAQ®** allows the operator to **work alone and in total safety**: his hands are no longer in touch with the plate, and its red and yellow colors ensure great visibility on the field.

It considerably reduces the strain and promotes an **ergonomic posture**. The tool is easy to move thanks to its wheels.

A TOOL RECOGNIZED BY FRENCH STATE ORGANIZATIONS

# A PLATE LIFTER, UNIQUE, ROBUST & VERSATILE

## LIFTPLAQ® DIMENSIONS

- ✓ **Height** 500 x **Length** 1000 mm
- ✓ **Width** with standard wheels : 200 mm
- ✓ **Width** with wheels extensions : 1100 mm
- ✓ **Weight** : 18 kg
