

EHV TESTERS WITH COMBINED SIGNALLING

- outdoor design

type 103 ...

TYPE	NOMINAL VOLTAGE OF TESTER
103 110	123kV
103 220	245kV
103 400	420kV

SPECIFICATION

- The product complies with the PNE 359700 and ČSN EN 61243-1
- Nominal voltage 110 kV – 420 kV
- The capacitance tester, frequency 50 Hz
- Power supply - 1.5 V AA batteries - 4 pcs
- Use category: outdoor
- Climate class: N (-25°C to + 55°C)
- Design category: L - no extended touch electrodes, Group indication - III
- Weight: 103110 – 1,5 kg, 103220 – 2,1 kg, 103400 – 3,2 kg
- The tester is delivered in case
