

FUSE TONGS 38,5kV

type 301 035

The device is designed to be used while replacing HV fuses under voltage in electric stations.

SPECIFICATION

Designed for fuses \varnothing 28-80 mm

Maximal voltage

38,5 kV

Test voltage

60 kV

Weight

1,3 kg

Product satisfy

PNE 359700, ČSN 359701
