

# Mini+ LIFTPLAQ®

LE LÈVE-PLAQUE MAGNÉTIQUE

MADE IN FRANCE 

## THE TOOL THAT MEETS YOUR NEEDS

The **MINI-LIFTPLAQ®+** is the result of a reflection based on **feedback** from major players in the civil engineering and telecommunications industries. This mini magnetic lifter allows **for safe** and effortless handling of manhole covers and plates, increasing **productivity, maneuverability, and power.**

It combines lightness, time savings, and safety, thereby **reducing the risk of accidents and promoting the prevention of musculoskeletal disorders (MSDs).**

**Made in France**, we guarantee quality after-sales service to ensure repairability and product longevity.

## AN EXCELLENT WEIGHT-TO-POWER RATIO

The assembly of magnets in the **MINI-LIFTPLAQ®+** allows the user to **safely manipulate** plates and covers of all shapes (up to 590 kg in optimal conditions\*).

The **MINI-LIFTPLAQ®+** can be easily transported anywhere and over long distances, thanks to its **lightweight of 4 kg and retractable handle.**

## AN EASY-TO-USE TOOL

The **MINI-LIFTPLAQ®+** allows for quick intervention on underground networks because of its **lightweight and compact design.** Its telescopic handle, adjustable in 3 heights, **adapts to the operator's size**, contributing to **respecting proper movements and postures on a daily basis.**

The release stop, easy to locate, allows for quick and safe detachment of the tool from the manhole covers.

\* Attraction tests conducted on a perfectly smooth plate, with a thickness of 1.5cm. Attraction power may vary depending on plate thickness, material, configuration, and cleanliness.

# THE MINI PLATE LIFTER POWERFUL & LIGHTWEIGHT

## DIMENSIONS OF MINI-LIFTPLAQ®+

- ✓ **Height** handle retracted : 495 mm
- ✓ **Size** magnet : 250 x 155 mm
- ✓ **Width** at handles : 390 mm
- ✓ **Weight** : 4 kg

## USE

**STEP 1**  
Adjust the handle using the adjustment button

**STEP 2**  
Magnetize the edge, lift it slightly and pull it by sliding the plate on the ground

**STEP 3**  
To take the magnet down, lower the handle against the unhooking stop

**STEP 4**  
Possibility to manipulate with 2 MINI-LIFTPLAQ®+

LIFTPLAQ® IS ALSO A TEAM OF EXPERTS AT YOUR SERVICE :  
ACCOMPANIMENT, ADVICE, LIFTS ON THE GROUND, TRAINING  
AVAILABLE ON REQUEST.
